

## REPORT OF FACTORY VISIT

- **Name of the Activity** : Factory Visit at Atlas Cables and accessories pvt. Ltd.  
: Chirai Salt Pvt. Ltd.
- **Conducted on** : 19<sup>th</sup> April, 2025 (Saturday)
- **Group / Class** : E (Classes XII Commerce)
- **No. of Participants** :39
- **Knowledge Acquired:** After a factory visit, students have acquired a range of practical and theoretical knowledge.

### 1. Understanding of Industrial Process:

Students observed how raw materials are transformed into finished products.

### 2. Exposure to Real-World Applications:

They saw how concepts learned in class (like automation, machinery, quality control, etc.) are applied in actual industry settings:

### 3. Workplace Environment Awareness:

They gain insight into the working conditions, roles and responsibilities of employees in different departments.

### 4. Production and Supply Chain:

They understood the flow of goods from procurement of raw materials to packaging and distribution.

### 5. Safety and Standards:

They learnt about workplace safety measures, industry regulations, and quality standards which are maintained during production.

### 6. Career Insights:

Exposure to various job roles can helped them to explore potential career paths and understand the skill required for different positions:

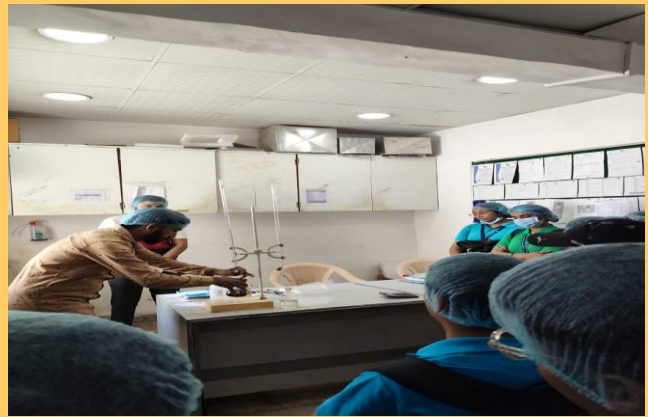

### 7. Environmental and Ethical Practices:

They have learnt about sustainable practices, waste management and ethical responsibility of a manufacturing business.

### 8. Team Work and Coordination:

Observing how departments collaborate helped them to understand importance of teamwork in achieving business goals:
